About Us

The Barudin Law Firm, established in 1998, with Ted Barudin as the founder and principal, is entirely a "Plaintiff only" personal injury and trial litigation law firm concentrating on representing persons and families who have been injured or killed as a result of someone else's negligence. We represent only individuals and their families and do not represent insurance companies or governmental agencies. The key motto for the Firm is "Preparation and Presentation."

By thoroughly preparing your case with the necessary research and investigation to the cause of the negligence, the nature of who the potential parties are to make the claims, and the assembling of the medical records and related medical research, the Barudin Law Firm conducts the necessary and thorough preparation to have a superior presentation at either mediation, arbitration, or at a trial.

At Barudin Law Firm, we serve your legal needs. Home, community and hospital visits are always welcomed. Your initial consultation is free and confidential. In your initial consultation you will meet with attorney, Ted Barudin to discuss the merits of your case and potential outcome of your claim. Attorney's fees and costs will be presented at this time.

At the time of hiring our Firm, you will review a document called the Contingent Agreement which is how you will hire the Firm to proceed on your behalf. This means that there will be no requirement to advance costs for your case or to pay a retainer fee for the work to begin.

Our contingency agreement ensures that unless we recover a settlement or obtain a court order or judgment, attorneys fees will not be assessed. In short, if there is no recovery, client shall owe no fee.

Costs of litigation and trial can be very expensive. Unless a client is financially solvent, it is typical for the Firm to advance those costs necessary to process the case from beginning to end. The costs typically advanced are for medical records, filing fees with courts, payment to court reporters for depositions, expert witness fees and costs, trial exhibits, and other necessary expenses to advance your case to conclusion.

Our commitment is to help you receive full compensation for your personal injuries.
